Forecast For The United Kingdom
Issued by Met Office Exeter
at 1500 on Thursday 03 Jun 2021

UK Outlook for Friday 18 Jun 2021 to Friday 2 Jul 2021:
Confidence is typically low for this outlook, but high pressure looks to be most likely with generally fine and dry conditions for most. However, the risk of some showers developing through the days is still possible with perhaps cloudier conditions and outbreaks of rain across the far west at times. Temperatures are likely to be above average.
